

1) BYO device (private) - you need to setup the PC from scratch.

2)Create an account on the laptop.

3)Use Private Microsoft account when setting up account on the laptop.

4)If you don't have one, its recommended to sign up for one here:

<https://account.microsoft.com/>. (Please get Parent(s)/Guardian permission before sign up). Scroll down to the bottom of web page and on the left you have "Create one" link. Click on that. See image below for reference

A screenshot of a Microsoft account creation page. The main heading is "Questions? We have answers" with a large red arrow pointing to the "Create one now" link in the first section. The first section contains text about Microsoft accounts not needing Microsoft email and a link to "Create one now". The second section contains text about existing accounts and a link to "Check if I have a Microsoft account". The third section contains a link to "Get help with your account".

5)For instructions on how to install Office 365 and for any other IT help go to:

<https://help.woodvale.wa.edu.au/help>. Click on BYOD to see all the help articles.
